+91-7458899124 | er.sauravgpt@gmail.com | LinkedIn | </> Coding Profile | Portfolio | GitHub

## EDUCATION

- University School of Information, Communication & Technology
- Bachelor of Technology - Computer Science and Engineering, CGPA: 9.1/10.0
- Delhi, India
- July 2022 - May 2026

## SKILLS

- **Languages:** C/C++, Golang, Java, JavaScript, Python, TypeScript
- **Frontend:** HTML5, Material UI, Next.js, React Native, React.js, Shadcn UI, Tailwind CSS, Framer Motion
- **Backend:** Node.js, Express.js, FastAPI, Firebase, Django
- **Databases:** MongoDB, MySQL, PostgreSQL, Prisma ORM
- **DevOps & Tools:** Docker, AWS, GitHub Actions (CI/CD), Git, Jira, Trello, Figma

## EXPERIENCE

- Frontend Engineer Intern

Build In Bharat Technologies

Nov 2024 – Mar 2025

  - Led frontend revamp across four flagship products, boosting UX and **driving a 30% revenue** increase in 3 months.
  - Integrated services like Django and Firebase for real-time updates and authentication, **deploying on AWS** through seamless CI/CD.
  - Coordinated cross-functional delivery using **Jira** to align tasks and expedite high-priority features.
  - **Skills:** Next.js, Django, Firebase, AWS, Tailwind CSS, Agile, UX Optimization, Jira
- Full Stack Web Developer Intern

Soni Consultancy

May 2024 – Oct 2024

  - Designed an invoice automation pipeline, cutting handling time for **3,000+ records** with asynchronous processing.
  - Boosted performance by 40% using distributed job queues, caching with **Redis**, and **Database indexing**.
  - Ensured persistent sessions with **Socket.IO**, secured authentication via **JWT**, and integrated secure cloud storage.
  - **Skills:** MERN Stack, Redis, WebSockets, Database indexing, API security, performance optimization
- Web Developer Intern

Zidio Development

Mar 2023 – Dec 2023

  - Engineered AI-assisted analytics into a multi-tenant SaaS platform, improving client decision-making speed by 30%.
  - Implemented data summarization, **saving 15+ staff hours** per week compared to manual reporting.
  - Optimized backend APIs and queries, cutting average response time from **1.8s to under 1.2s** during peak traffic.
  - **Skills:** MERN Stack, Python, LLM, Postman, LangChain, GitHub Actions

## PROJECTS

- Career Vault

(Next.js, Tailwind CSS, Clerk, PostgreSQL, Prisma, Inngest, Gemini API, Stripe)

GitHub

  - Engineered a career development platform integrating resume builder, cover letter generator, and mock interview tools aligned with industry practices.
  - Architected PostgreSQL-based data models with Prisma and programmed cron job scheduling via Inngest.
  - Integrated Stripe payments and Gemini API to deliver secure transactions and intelligent content generation.
- Decoverse

(React.js, Tailwind CSS, Material UI, Node.js, Express.js, MongoDB, Firebase, Docker)

GitHub

  - Built a website aggregating upcoming programming contests, challenges, and hackathons from major coding platforms.
  - Configured **automated contest data fetching** and ranking workflows, removing manual update dependency.
  - Deployed interactive portfolios and leaderboards with **Firebase** authentication and **Docker-based containerization**.
- Universal Student Assistance Portal (USAP)

(React.js, Tailwind CSS, Zustand, Node.js, Express.js, Multer, MongoDB, Nodemailer, Passport.js)

GitHub

  - Crafted a platform for students to explore studying abroad, receive expert guidance, and access real-time support.
  - Incorporated **Google OAuth** for secure authentication and **Nodemailer** for streamlined email notifications.
  - Orchestrated **RBAC** for students and admins with Razorpay integration for secure payment processing.

## HONORS AND ACHIEVEMENTS

- Solved **550+ algorithm problems** on [LeetCode](#), Contest Rating: **1613**, ranked in the top 30% in weekly contests.
- Awarded **Best Club President** at [Google Developer Groups](#), [USICT](#) for organizing 20+ technical events and mentoring 200+ students in competitive programming and Full Stack Web development.
